

Product Datasheet

Human Podocalyxin (PCX) ELISA Kit (orb1807103)

Catalog Number	orb1807103
Category	Assays and Kits
Description	Human Podocalyxin (PCX) ELISA Kit
Target	PCX
Reactivity	Human
UniProt ID	O00592
Application notes	<p>This ELISA kit uses the Competitive-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with Human PCX. During the reaction, Human PCX in the sample or standard competes with a fixed amount of Human PCX on the solid phase supporter for sites on the Biotinylated Detection Ab specific to Human PCX. Excess conjugate and unbound sample or standard are washed away, and Avidin-Horseradish Peroxidase (HRP) conjugate are added to each micro plate well and incubated. Then a TMB substrate solution is added to each well. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns from blue to yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm \pm 2 nm. The concentration of Human PCX in tested samples can be calculated by comparing the OD of the samples to the standard curve.</p>
Assay Type	Competitive
Assay Time	1.5H
Standard	10ng/mL
Range	0.16-10ng/mL
Sensitivity	0.10 ng/mL

Biorbyt Ltd.

Sample Types serum, plasma, Tissue homogenate and Other biological samples

Note For research use only

Expiration Date 6 months from date of receipt.
