

Product Datasheet

Human Insulin Like Growth Factor 1 Receptor (IGF1R) ELISA Kit (orb1807442)

Catalog Number	orb1807442
Category	Assays and Kits
Description	Human Insulin Like Growth Factor 1 Receptor (IGF1R) ELISA Kit
Target	IGF-1R
Reactivity	Human
UniProt ID	P08069
Application notes	<p>This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Human IGF1R. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Human IGF1R and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Human IGF1R, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm \pm 2 nm. The OD value is proportional to the concentration of Human IGF1R. You can calculate the concentration of Human IGF1R in the samples by comparing the OD of the samples to the standard curve.</p>
Assay Type	Sandwich
Assay Time	3.5H
Standard	20ng/mL

Biorbyt Ltd.

Range	0.31-20ng/mL
Sensitivity	0.16 ng/mL
Sample Types	Tissue homogenate and Cell lysate
Note	For research use only
Expiration Date	6 months from date of receipt.
