

Product Datasheet

Human Epidermal Growth Factor Receptor 2 (EGFR2) ELISA Kit (orb1807564)

Catalog Number	orb1807564
Category	Assays and Kits
Description	Human Epidermal Growth Factor Receptor 2 (EGFR2) ELISA Kit
Target	EGFR2
Reactivity	Human
UniProt ID	P04626
Application notes	<p>This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Human EGFR2. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Human EGFR2 and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Human EGFR2, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm \pm 2 nm. The OD value is proportional to the concentration of Human EGFR2. You can calculate the concentration of Human EGFR2 in the samples by comparing the OD of the samples to the standard curve.</p>
Assay Type	Sandwich
Assay Time	3.5H
Standard	2000pg/mL

Biorbyt Ltd.

Range	31.25-2000pg/mL
Sensitivity	13.7 pg/mL
Sample Types	IC, Cell lysate
Note	For research use only
Expiration Date	6 months from date of receipt.
