

Product Datasheet

Rat Platelet-Derived Growth Factor Soluble Receptor α (PDGFsR- α) ELISA Kit (orb1947136)

Catalog Number	orb1947136
Category	Assays and Kits
Description	Rat Platelet-Derived Growth Factor Soluble Receptor α (PDGFsR- α) ELISA Kit
Target	PDGFsR- α
Reactivity	Rat
Application notes	This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Rat PDGFsR-α. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Rat PDGFsR-α and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Rat PDGFsR-α, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm $\pm$ 2 nm. The OD value is proportional to the concentration of Rat PDGFsR-α. You can calculate the concentration of Rat PDGFsR-α in the samples by comparing the OD of the samples to the standard curve.
Assay Type	Sandwich
Assay Time	3.5H
Standard	10ng/mL
Range	0.16-10ng/mL

Biorbyt Ltd.

Sensitivity	0.1 ng/mL
Sample Types	serum, plasma, Tissue homogenate and Other biological samples
Note	For research use only
