

Product Datasheet

Rat Neutrophil Elastase/Elastase-2 (NE/ELA2) ELISA Kit (orb1947346)

Catalog Number	orb1947346
Category	Assays and Kits
Description	Rat Neutrophil Elastase/Elastase-2 (NE/ELA2) ELISA Kit
Target	NE/ELA2
Reactivity	Rat
Application notes	This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Rat NE/ELA2. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Rat NE/ELA2 and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Rat NE/ELA2, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm $\pm$ 2 nm. The OD value is proportional to the concentration of Rat NE/ELA2. You can calculate the concentration of Rat NE/ELA2 in the samples by comparing the OD of the samples to the standard curve.
Assay Type	Sandwich
Assay Time	3.5H
Standard	100ng/mL
Range	1.57-100ng/mL

Biorbyt Ltd.

7 Signet Court, Swann Road
Cambridge

Phone: +1 (415) 906-5211 | Fax: +1 (415) 651-8558

Sensitivity 0.94 ng/mL

Sample Types serum, plasma, Tissue homogenate and Other biological samples

Note For research use only
