

Product Datasheet

Rat Lecithin-Cholesterol Acyltransferase (LCAT) ELISA Kit (orb1948047)

Catalog Number	orb1948047
Category	Assays and Kits
Description	Rat Lecithin-Cholesterol Acyltransferase (LCAT) ELISA Kit
Target	LCAT
Reactivity	Rat
UniProt ID	P18424
Application notes	This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Rat LCAT. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Rat LCAT and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Rat LCAT, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm $\pm$ 2 nm. The OD value is proportional to the concentration of Rat LCAT. You can calculate the concentration of Rat LCAT in the samples by comparing the OD of the samples to the standard curve.
Assay Type	Sandwich
Assay Time	3.5H
Standard	40ng/mL

Biorbyt Ltd.

7 Signet Court, Swann Road

Phone: +1 (415) 906-5211 | Fax: +1 (415) 651-8558

Range	0.63-40ng/mL
Sensitivity	0.38 ng/mL
Sample Types	serum, plasma, Tissue homogenate and Other biological samples
Note	For research use only
Expiration Date	6 months from date of receipt.

Standard curve for orb1948047 ELISA kit.
