

Product Datasheet

Rat Ciliary Neurotrophic Factor (CNTF) ELISA Kit (orb1949982)

Catalog Number	orb1949982
Category	Assays and Kits
Description	Rat Ciliary Neurotrophic Factor (CNTF) ELISA Kit
Target	CNTF
Reactivity	Rat
UniProt ID	P20294
Application notes	<p>This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Rat CNTF. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Rat CNTF and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Rat CNTF, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm \pm 2 nm. The OD value is proportional to the concentration of Rat CNTF. You can calculate the concentration of Rat CNTF in the samples by comparing the OD of the samples to the standard curve.</p>
Assay Type	Sandwich
Assay Time	3.5H
Standard	2500pg/mL

Biorbyt Ltd.

Range	39.07-2500pg/mL
Sensitivity	23.44 pg/mL
Sample Types	serum, plasma, Tissue homogenate and Other biological samples
Note	For research use only
Expiration Date	6 months from date of receipt.
