

Product Datasheet

Sheep Rabbit PhosphoglyceRate mutase, conjugated with Biotin Antibody (orb21150)

Catalog Number	orb21150
Category	Antibodies
Description	Biotin-conjugated IgG fraction of polyclonal sheep antiserum to phosphoglyceric mutase from rabbit muscle. This product is intended for use in precipitating and non-precipitating antibody-binding assays (such as e.g., ELISA and Western blotting and immunofluorescence or histochemical techniques).
Clonality	Polyclonal
Species/Host	Sheep
Conjugation	Biotin
Reactivity	Rabbit
Form/Appearance	Biotin-coupled hyperimmune sheep IgG lyophilised from a solution in phosphate buffered saline (PBS, pH 7.2). No preservative added, as it may interfere with the antibody activity. No foreign protein added.
UniProt ID	G1U7S4
RRID	AB_10934212
Specificity	Biotin-conjugated IgG fraction of polyclonal Sheep antiSerum to phosphoglyceric mutase from Rabbit muscle
Antibody Type	Primary Antibody
Source	Phosphoglyceric mutase isolated and purified from rabbit muscle. Freund's complete adjuvant is used in the first step of the immunization procedure.

Storage

The lyophilised conjugate is shipped at ambient temperature and may be stored at +4°C; prolonged storage at or below -20°C. Prior to use, an aliquot is thawed slowly at ambient temperature, spun down again and used to prepare working dilutions by adding sterile phosphate buffered saline (PBS, pH 7.2). Repeated thawing and freezing should be avoided. Working dilutions should be stored at +4°C, not refrozen, and preferably used the same day. If a slight precipitation occurs upon storage, this should be removed by centrifugation. It will not affect the performance of the product.

Note

For research use only

Expiration Date

12 months from date of receipt.
