

## **Product Datasheet**

## Rabbit anti Sheep IgG (heavy and light chains) (orb21547)

**Catalog Number** orb21547

**Description** Purified IgG fraction of polyclonal rabbit antiserum to sheep IgG, heavy and light

> chains. As unlabelled primary or secondary reagent for indirect detection techniques, to prepare conjugates with markers of the user's own choice, to prepare an insoluble immunoaffinity adsorbent or a solid phase antibody reagent by coupling to an artificial carrier and as catching or detection antibody in nonisotopic methodology and solid phase immunochemistry. When applied in any cytochemical or histochemical procedure or solids phase coupling technique, the optimum concentration of the IgG preparation should always be established by titration. Typical working dilutions in histochemistry are usually between 1:50 and 1:250; in ELISA and comparable non-precipitating antibody-binding assays

between 1:500 and 1:5,000.

Species/Host Rabbit

Reactivity Sheep

Conjugation Unconjugated

**Preservatives** Purified hyperimmune rabbit IgG lyophilized from a solution in phosphate

> buffered saline (PBS, pH 7.2). No preservative added, as it may interfere with the antibody activity. No foreign protein added. IgG protein concentration 10 mg/ml.

No foreign protein

Form/Appearance Purified hyperimmune rabbit IgG lyophilized from a solution in phosphate

> buffered saline (PBS, pH 7.2). No preservative added, as it may interfere with the antibody activity. No foreign protein added. IgG protein concentration 10 mg/ml.

No foreign protein

**Storage** Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -

20°C in small aliquots to prevent freeze-thaw cycles.

**Note** For research use only

Phone: +1 (415) 906-5211 | Fax: +1 (415) 651-8558

**Clonality** Polyclonal

Antibody Type Secondary Antibody

**Source** Purified normal IgG isolated from pooled sheep serum. Freund's complete

adjuvant is used in the first step of the immunization procedure.

**Hazard Information** This product is intended FOR RESEARCH USE ONLY, and FOR TESTS IN VITRO,

not for use in diagnostic or therapeutic procedures involving humans or animals. This datasheet is as accurate as reasonably achievable, but Biorbyt accepts no

liability for any inaccuracies or omissions in this information.

**Expiration Date** 12 months from date of receipt.
