

Product Datasheet

Goat anti Rat IgG1 IgG2a IgG2b IgG2c IgA IgM (heavy and light chains) (non Human and Mouse) (orb21680)

Description

Purified IgG fraction of polyclonal goat antiserum to rat immunoglobulins IgG, IgA, IgM, heavy and light chains, adsorbed for human and mouse cross-reactivity. The cytochemical grade allows the use in different types of highly sensitive immunoassays on appropriately treated cell and tissue substrates; in radioimmunoassay; for the production of immunoconjugates with a selected marker; to prepare immunoaffinity adsorbents by coupling to an artificial carrier; in non-isotopic methodology based on solid phase immunochemistry (e.g. ELISA), both as catching antibody and detection reagent; in Western blotting. This product is not pre-diluted. The optimum working dilution of each product should be established by titration before being used. Working dilutions for histochemical and cytochemical use are usually between 1:50 and 1:250; in ELISA and comparable non-precipitating antibody-binding assays are between 1:500 and 1:5,000.

Species/Host Goat

Conjugation Unconjugated

Preservatives Purified hyperimmune goat IgG lyophilized from a solution in phosphate buffered

saline (PBS, pH 7.2). No preservative added, as it may interfere with the

antibody activity.

Form/Appearance Purified hyperimmune goat IgG lyophilized from a solution in phosphate buffered

saline (PBS, pH 7.2). No preservative added, as it may interfere with the

antibody activity.

Storage Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -

20°C in small aliquots to prevent freeze-thaw cycles.

Note For research use only

Clonality Polyclonal

Antibody Type Secondary Antibody

Source Highly purified IgG, including all subclasses, and pools of homogenous IgA and

IgM isolated from rat serum. Freund's complete adjuvant is used in the first step

of the immunization procedure.

Hazard Information This product is intended FOR RESEARCH USE ONLY, and FOR TESTS IN VITRO,

not for use in diagnostic or therapeutic procedures involving humans or animals. This datasheet is as accurate as reasonably achievable, but Biorbyt accepts no

liability for any inaccuracies or omissions in this information.

Expiration Date 12 months from date of receipt.
