

Product Datasheet

Human Interleukin 5 (IL5) EasyStep ELISA Kit (orb2302955)

Catalog Number	orb2302955
Category	Assays and Kits
Description	<p>The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human IL5, and the Human IL5 standard plate wells that pre-coated using protein-related techniques are provided separately. Standard/Sample Diluent Buffer or samples are added to the appropriate microtiter plate wells ,then added a HRP-conjugated antibody specific to Human IL5. After TMB substrate solution is added, only those wells that contain Human IL5 and HRP-conjugated antibody will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm \pm 10nm. The concentration of Human IL5 in the samples is then determined by comparing the OD of the samples to the standard curve.</p>
Reactivity	Human
Concentration	200 pg/mL
Application notes	<p>standard: 200 pg/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human IL5, and the Human IL5 standard plate wells that pre-coated using protein-related techniques are provided separately. Standard/Sample Diluent Buffer or samples are added to the appropriate microtiter plate wells ,then added a HRP-conjugated antibody specific to Human IL5. After TMB substrate solution is added, only those wells that contain Human IL5 and HRP-conjugated antibody will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm \pm 10nm. The concentration of Human IL5 in the samples is then determined by comparing the OD of the samples to the standard curve</p>

Assay Type	Sandwich
Assay Time	1.5h
Range	3.13-200 pg/mL
Sensitivity	0.15 pg/mL
Sample Types	Serum, plasma, cell culture supernatants
Note	For research use only
Expiration Date	6 months from date of receipt.
