

Product Datasheet

Recombinant Chromogranin A Antibody / Rabbit Monoclonal (orb2641191)

Catalog Number	orb2641191
Category	Antibodies
Description	<p>Chromogranin A is present in neuroendocrine cells throughout the body, including the neuroendocrine cells of the large and small intestine, adrenal medulla and pancreatic islets. It is an excellent marker for carcinoid tumors, pheochromocytomas, paragangliomas, and other neuroendocrine tumors. Co-expression of chromogranin A and neuron specific enolase (NSE) is common in neuroendocrine neoplasms. Reportedly, co-expression of certain keratins and chromogranin indicates neuroendocrine lineage. The presence of strong anti-chromogranin staining and absence of anti-keratin staining should raise the possibility of paraganglioma. The co-expression of chromogranin and NSE is typical of neuroendocrine neoplasms. Most pituitary adenomas and prolactinomas readily express chromogranin.</p>
Clonality	Recombinant
Species/Host	Rabbit
Isotype	Rabbit IgG, kappa
Conjugation	Unconjugated
Reactivity	Human
Buffer/Preservatives	1 mg/ml in 1X PBS; rAlbumin free, sodium azide free
Purification	Protein A affinity chromatography
Immunogen	Recombinant human protein was used as the immunogen for the recombinant Chromogranin A antibody.

UniProt ID	P10645
Tested applications	IHC-P
Dilution range	Immunohistochemistry (FFPE): 0.5-1ug/ml for 30 min at RT
Application notes	Optimal dilution of the recombinant Chromogranin A antibody should be determined by the researcher.
Antibody Type	Primary Antibody
Clone Number	CHGA/1815R
Storage	Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.
Note	For research use only
Expiration Date	12 months from date of receipt.

IHC analysis of FFPE human pancreas stained with recombinant Chromogranin A antibody (clone CHGA/1815R). Required HIER: steam sections in pH6 citrate buffer for 10-20 min.

SDS-PAGE analysis of purified, BSA-free recombinant Chromogranin A antibody (clone CHGA/1815R) as confirmation of integrity and purity.

Human Protein Microarray Specificity Validation

Analysis of HuProt (TM) microarray containing more than 19,000 full-length human proteins using Chromogranin A antibody (clone CHGA/1815R). These results demonstrate the foremost specificity of the CHGA/1815R mAb.
