

## Product Datasheet

### Chicken Interleukin 9 (IL9) ELISA Kit (orb2667293)

<b>Catalog Number</b>	orb2667293
<b>Category</b>	Assays and Kits
<b>Description</b>	Chicken Interleukin 9 (IL9) ELISA Kit
<b>Reactivity</b>	Gallus
<b>Application notes</b>	<p>standard: 1000 pg/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Chicken IL9. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Chicken IL9. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Chicken IL9, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm <math>\pm</math> 10nm. The concentration of Chicken IL9 in the samples is then determined by comparing the OD of the samples to the standard curve</p>
<b>Assay Type</b>	Sandwich
<b>Assay Time</b>	3.5h
<b>Range</b>	15.63-1000 pg/mL
<b>Sensitivity</b>	5.8 pg/mL
<b>Sample Types</b>	Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids.
<b>Note</b>	For research use only
<b>Expiration Date</b>	6 months from date of receipt.
