

Product Datasheet

Mouse Mannose Associated Serine Protease 1 (MASP1) ELISA Kit (orb2667835)

Catalog Number	orb2667835
Category	Assays and Kits
Description	Mouse Mannose Associated Serine Protease 1 (MASP1) ELISA Kit
Reactivity	Mouse
UniProt ID	P98064
Application notes	<p>standard: 1000 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse MASP1. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse MASP1. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse MASP1, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm \pm 10nm. The concentration of Mouse MASP1 in the samples is then determined by comparing the OD of the samples to the standard curve</p>
Assay Type	Sandwich
Assay Time	3.5h
Range	15.63-1000 ng/mL
Sensitivity	6.7 ng/mL
Sample Types	Serum, plasma and other biological fluids

Biorbyt Ltd.
