

Product Datasheet

Human Diamine Oxidase (DAO) ELISA Kit (orb2667987)

Catalog Number	orb2667987
Category	Assays and Kits
Description	Human Diamine Oxidase (DAO) ELISA Kit
Reactivity	Human
UniProt ID	P14920
Application notes	<p>standard: 200 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human DAO. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human DAO. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human DAO, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm \pm 10nm. The concentration of Human DAO in the samples is then determined by comparing the OD of the samples to the standard curve</p>
Assay Type	Sandwich
Assay Time	3.5h
Range	3.13-200 ng/mL
Sensitivity	1.19 ng/mL
Sample Types	serum, plasma, tissue homogenates and other biological fluids

Biorbyt Ltd.
