

Product Datasheet

Mouse Soluble Cluster of Differentiation 40 Ligand (sCD40L) ELISA Kit (orb2668205)

Catalog Number	orb2668205
Category	Assays and Kits
Description	Mouse Soluble Cluster of Differentiation 40 Ligand (sCD40L) ELISA Kit
Reactivity	Mouse
UniProt ID	P27548
Application notes	<p>standard: 1000 pg/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse sCD40L. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse sCD40L. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse sCD40L, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm \pm 10nm. The concentration of Mouse sCD40L in the samples is then determined by comparing the OD of the samples to the standard curve</p>
Assay Type	Sandwich
Assay Time	3.5h
Range	15.63-1000 pg/mL
Sensitivity	6.8 pg/mL
Sample Types	serum, plasma, tissue homogenates, cell lysates and other biological fluids
