### Salvinorin A (orb2813916)

|                |                                                                                                                 |
|----------------|-----------------------------------------------------------------------------------------------------------------|
| Catalog Number | orb2813916                                                                                                      |
| Category       | Small Molecules                                                                                                 |
| Description    | Salvinorin A is a non-nitrogenous $\kappa$ -opioid selective agonist.                                           |
| Target         | Opioid Receptor                                                                                                 |
| Purity         | 99.06%                                                                                                          |
| MW             | 432.46                                                                                                          |
| CAS Number     | 83729-01-5                                                                                                      |
| Formula        | $C_{23}H_{28}O_8$                                                                                               |
| SMILES         | <chem>C[C@@]12[C@@]3([C@](C)([C@H](C(OC)=O)C[C@H](OC(C)=O)C3=O)CC[C@]1(C(=O)O[C@@H](C2)C=4C=COC4)[H])[H]</chem> |
| Storage        | -20°C                                                                                                           |
| Note           | For research use only                                                                                           |
