Human GDF10(GrowthDifferentiation Factor 10) Microsample ELISA Kit (orb2997298)

| | |
|--------------------------|--|
| Catalog Number | orb2997298 |
| Category | Assays and Kits |
| Description | Human GDF10(GrowthDifferentiation Factor 10) Microsample ELISA Kit |
| Reactivity | Human |
| UniProt ID | P55107 |
| Application notes | <p>The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human GDF10. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human GDF10. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human GDF10, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm \pm 10nm. The concentration of Human GDF10 in the samples is then determined by comparing the OD of the samples to the standard curve.</p> |
| Assay Type | Sandwich |
| Assay Time | 3.5h |
| Range | 31.25-2000 pg/mL |
| Sensitivity | 20.1 pg/mL |
| Sample Types | serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids |

Biorbyt Ltd.

7 Signet Court, Swann Road
