

Product Datasheet

Rat CD8(Cluster of Differentiation 8) Microsample ELISA Kit (orb2997311)

Catalog Number	orb2997311
Category	Assays and Kits
Description	Rat CD8(Cluster of Differentiation 8) Microsample ELISA Kit
Reactivity	Rat
UniProt ID	P07725
Application notes	<p>The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rat CD8. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat CD8. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rat CD8, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm \pm 10nm. The concentration of Rat CD8 in the samples is then determined by comparing the OD of the samples to the standard curve.</p>
Assay Type	Sandwich
Assay Time	3.5h
Range	0.16-10 ng/mL
Sensitivity	0.062 ng/mL
Sample Types	tissue homogenates, cell lysates, cell culture supernates and other biological fluids
