

Product Datasheet

Human LMNB1(Lamin B1) Microsample ELISA Kit (orb2997604)

Catalog Number	orb2997604
Category	Assays and Kits
Description	Human LMNB1(Lamin B1) Microsample ELISA Kit
Reactivity	Human
UniProt ID	P20700
Application notes	<p>The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human LMNB1. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human LMNB1. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human LMNB1, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm \pm 10nm. The concentration of Human LMNB1 in the samples is then determined by comparing the OD of the samples to the standard curve.</p>
Assay Type	Sandwich
Assay Time	3.5h
Range	0.16-10 ng/mL
Sensitivity	0.059 ng/mL
Sample Types	tissue homogenates, cell lysates and other biological fluids
