

## Product Datasheet

# Rat SMTN(Smoothelin) Microsample ELISA Kit (orb2997726)

<b>Catalog Number</b>	orb2997726
<b>Category</b>	Assays and Kits
<b>Description</b>	Rat SMTN(Smoothelin) Microsample ELISA Kit
<b>Reactivity</b>	Rat
<b>Application notes</b>	<p>The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rat SMTN. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat SMTN. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rat SMTN, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm <math>\pm</math> 10nm. The concentration of Rat SMTN in the samples is then determined by comparing the OD of the samples to the standard curve.</p>
<b>Assay Type</b>	Sandwich
<b>Assay Time</b>	3.5h
<b>Range</b>	0.79-50 ng/mL
<b>Sensitivity</b>	0.25 ng/mL
<b>Sample Types</b>	Tissue homogenates, cell lysates and other biological fluids.
<b>Note</b>	For research use only
