

Product Datasheet

Human POTE_G(POTE Ankyrin Domain Family, Member G) Microsample ELISA Kit (orb2997834)

Catalog Number	orb2997834
Category	Assays and Kits
Description	Human POTE _G (POTE Ankyrin Domain Family, Member G) Microsample ELISA Kit
Reactivity	Human
UniProt ID	Q6S5H5
Application notes	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human POTE_G. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human POTE_G. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human POTE_G, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of Human POTE_G in the samples is then determined by comparing the OD of the samples to the standard curve.
Assay Type	Sandwich
Assay Time	3.5h
Range	0.32-20 ng/mL
Sensitivity	0.12 ng/mL
Sample Types	Tissue homogenates, cell lysates and other biological fluids.
