

Product Datasheet

Mouse MYO5A(Myosin VA) Microsample ELISA Kit (orb2997999)

Catalog Number	orb2997999
Category	Assays and Kits
Description	Mouse MYO5A(Myosin VA) Microsample ELISA Kit
Reactivity	Mouse
UniProt ID	Q99104
Application notes	<p>The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse MYO5A. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse MYO5A. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse MYO5A, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm \pm 10nm. The concentration of Mouse MYO5A in the samples is then determined by comparing the OD of the samples to the standard curve.</p>
Assay Type	Sandwich
Assay Time	3.5h
Range	0.16-10 ng/mL
Sensitivity	0.046 ng/mL
Sample Types	Tissue homogenates and other biological fluids.
