

Product Datasheet

Human PCNA(Proliferating Cell Nuclear Antigen) Microsample ELISA Kit (orb2998133)

Catalog Number	orb2998133
Category	Assays and Kits
Description	Human PCNA(Proliferating Cell Nuclear Antigen) Microsample ELISA Kit
Reactivity	Human
UniProt ID	P12004
Application notes	<p>The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human PCNA. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human PCNA. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human PCNA, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm \pm 10nm. The concentration of Human PCNA in the samples is then determined by comparing the OD of the samples to the standard curve.</p>
Assay Type	Sandwich
Assay Time	3.5h
Range	0.16-10 ng/mL
Sensitivity	0.055 ng/mL
Sample Types	tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Biorbyt Ltd.
