

Product Datasheet

Rat PAR4(Protease Activated Receptor 4) Microsample ELISA Kit (orb2998225)

Catalog Number	orb2998225
Category	Assays and Kits
Description	Rat PAR4(Protease Activated Receptor 4) Microsample ELISA Kit
Reactivity	Rat
UniProt ID	Q920E0
Application notes	<p>The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rat PAR4. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat PAR4. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rat PAR4, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm \pm 10nm. The concentration of Rat PAR4 in the samples is then determined by comparing the OD of the samples to the standard curve.</p>
Assay Type	Sandwich
Assay Time	3.5h
Range	0.32-20 ng/mL
Sensitivity	0.118 ng/mL
Sample Types	Tissue homogenates, cell lysates and other biological fluids
