

Product Datasheet

Rat MOG(Myelin Oligodendrocyte Glycoprotein) Microsample ELISA Kit (orb2998281)

Catalog Number	orb2998281
Category	Assays and Kits
Description	Rat MOG(Myelin Oligodendrocyte Glycoprotein) Microsample ELISA Kit
Reactivity	Rat
UniProt ID	Q63345
Application notes	<p>The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rat MOG. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat MOG. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rat MOG, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm \pm 10nm. The concentration of Rat MOG in the samples is then determined by comparing the OD of the samples to the standard curve.</p>
Assay Type	Sandwich
Assay Time	3.5h
Range	0.16-10 ng/mL
Sensitivity	0.051 ng/mL
Sample Types	Tissue homogenates and other biological fluids.
