

Product Datasheet

Human SLC16A1(Solute Carrier Family 16, Member 1) Microsample ELISA Kit (orb2998292)

Catalog Number	orb2998292
Category	Assays and Kits
Description	Human SLC16A1(Solute Carrier Family 16, Member 1) Microsample ELISA Kit
Reactivity	Human
UniProt ID	P53985
Application notes	<p>The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human SLC16A1. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human SLC16A1. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human SLC16A1, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm \pm 10nm. The concentration of Human SLC16A1 in the samples is then determined by comparing the OD of the samples to the standard curve.</p>
Assay Type	Sandwich
Assay Time	3.5h
Range	0.32-20 ng/mL
Sensitivity	0.11 ng/mL
Sample Types	Tissue homogenates, cell lysates and other biological fluids.
