

Product Datasheet

Human PPAR α (Peroxisome Proliferator Activated Receptor Alpha) Microsample ELISA Kit (orb2998931)

Catalog Number	orb2998931
Category	Assays and Kits
Description	Human PPAR α (Peroxisome Proliferator Activated Receptor Alpha) Microsample ELISA Kit
Reactivity	Human
UniProt ID	Q07869
Application notes	<p>The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human PPARα. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human PPARα. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human PPARα, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm \pm 10nm. The concentration of Human PPARα in the samples is then determined by comparing the OD of the samples to the standard curve.</p>
Assay Type	Sandwich
Assay Time	3.5h
Range	0.78-50 ng/mL
Sensitivity	0.31 ng/mL

Biorbyt Ltd.

Sample Types	tissue homogenates, cell lysates, cell culture supernates and other biological fluids
Note	For research use only
Expiration Date	6 months from date of receipt.
