

Product Datasheet

Human PLGF(Placenta Growth Factor) Microsample ELISA Kit (orb2999089)

Catalog Number	orb2999089
Category	Assays and Kits
Description	Human PLGF(Placenta Growth Factor) Microsample ELISA Kit
Reactivity	Human
UniProt ID	P49763
Application notes	<p>The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human PLGF. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human PLGF. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human PLGF, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm \pm 10nm. The concentration of Human PLGF in the samples is then determined by comparing the OD of the samples to the standard curve.</p>
Assay Type	Sandwich
Assay Time	3.5h
Range	31.25-2000 pg/mL
Sensitivity	7.8 pg/mL
Sample Types	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Biorbyt Ltd.
