

Product Datasheet

Human MIA1(Melanoma Inhibitory Activity Protein 1) Microsample ELISA Kit (orb2999309)

Catalog Number	orb2999309
Category	Assays and Kits
Description	Human MIA1(Melanoma Inhibitory Activity Protein 1) Microsample ELISA Kit
Reactivity	Human
UniProt ID	Q16674
Application notes	<p>The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human MIA1. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human MIA1. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human MIA1, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm \pm 10nm. The concentration of Human MIA1 in the samples is then determined by comparing the OD of the samples to the standard curve.</p>
Assay Type	Sandwich
Assay Time	3.5h
Range	31.25-2000 pg/mL
Sensitivity	11.2 pg/mL
Sample Types	Serum, plasma and other biological fluids.
