

Product Datasheet

Mouse HMGB-1(High Mobility Group Protein B1) Microsample ELISA Kit (orb2999410)

Catalog Number	orb2999410
Category	Assays and Kits
Description	Mouse HMGB-1(High Mobility Group Protein B1) Microsample ELISA Kit
Reactivity	Mouse
UniProt ID	P63158
Application notes	<p>The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse HMGB-1. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse HMGB-1. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse HMGB-1, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm \pm 10nm. The concentration of Mouse HMGB-1 in the samples is then determined by comparing the OD of the samples to the standard curve.</p>
Assay Type	Sandwich
Assay Time	3.5h
Range	0.16-10 ng/mL
Sensitivity	0.063 ng/mL
Sample Types	serum, plasma and other biological fluids

Biorbyt Ltd.
