

Product Datasheet

Mouse VCAM1(Vascular Cell Adhesion Molecule 1) Microsample ELISA Kit (orb2999423)

Catalog Number	orb2999423
Category	Assays and Kits
Description	Mouse VCAM1(Vascular Cell Adhesion Molecule 1) Microsample ELISA Kit
Reactivity	Mouse
UniProt ID	P29533
Application notes	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse VCAM1. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse VCAM1. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse VCAM1, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of Mouse VCAM1 in the samples is then determined by comparing the OD of the samples to the standard curve.
Assay Type	Sandwich
Assay Time	3.5h
Range	0.39-25 μ g/mL
Sensitivity	0.17 μ g/mL
Sample Types	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids
