

## Product Datasheet

# Human V-set domain-containing T-cell activation inhibitor 1 (VTCN1) ELISA Kit (orb3145772)

<b>Catalog Number</b>	orb3145772
<b>Category</b>	Assays and Kits
<b>Description</b>	This Human V-set domain-containing T-cell activation inhibitor 1 (VTCN1) ELISA Kit employs a two-site sandwich ELISA to quantitate VTCN1.
<b>Reactivity</b>	Human
<b>Tested applications</b>	ELISA
<b>Application notes</b>	<p>This Human V-set domain-containing T-cell activation inhibitor 1 (VTCN1) ELISA Kit employs a two-site sandwich ELISA to quantitate VTCN1 in samples. An antibody specific for VTCN1 has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any VTCN1 present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for VTCN1 is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of VTCN1 bound in the initial step. The color development is stopped and the intensity of the color is measured.</p>
<b>Range</b>	Please inquire
<b>Sensitivity</b>	Please inquire
<b>Sample Types</b>	Cell culture supernatants#Serum#Plasma#Other biological fluids
<b>Storage</b>	The unopened kit should be stored at 2 - 8°C. After opening, please refer to protocols.
