

Product Datasheet

Human Amiloride-sensitive sodium channel subunit gamma (SCNN1G) ELISA Kit (orb3146459)

Catalog Number	orb3146459
Category	Assays and Kits
Description	This Human Amiloride-sensitive sodium channel subunit gamma (SCNN1G) ELISA Kit employs a two-site sandwich ELISA to quantitate SCNN1G.
Reactivity	Human
Tested applications	ELISA
Application notes	<p>This Human Amiloride-sensitive sodium channel subunit gamma (SCNN1G) ELISA Kit employs a two-site sandwich ELISA to quantitate SCNN1G in samples. An antibody specific for SCNN1G has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any SCNN1G present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for SCNN1G is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of SCNN1G bound in the initial step. The color development is stopped and the intensity of the color is measured.</p>
Range	Please inquire
Sensitivity	Please inquire
Sample Types	Cell culture supernatants#Serum#Plasma#Other biological fluids
Storage	The unopened kit should be stored at 2 - 8°C. After opening, please refer to protocols.
