

## Product Datasheet

### Human Caspase-9 (CASP9) ELISA Kit (orb3147589)

<b>Catalog Number</b>	orb3147589
<b>Category</b>	Assays and Kits
<b>Description</b>	Human Caspase-9 (CASP9) ELISA Kit employs a two-site sandwich ELISA to quantitate Caspase-9 in samples.
<b>Reactivity</b>	Human
<b>Tested applications</b>	ELISA
<b>Application notes</b>	Human Caspase-9 (CASP9) ELISA Kit employs a two-site sandwich ELISA to quantitate Caspase-9 in samples. An antibody specific for Caspase-9 has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any Caspase-9 present is bound by the immobilized antibody. After removing any unbound substances, HRP-Conjugate Human Caspase-9 detection antibody is added to the wells. Following a wash to remove any unbound HRP reagent, a Chromogen solution is added to the wells and color develops in proportion to the amount of Caspase-9 bound in the initial step. The color development is stopped and the intensity of the color is measured.
<b>Range</b>	1 pmol/L-16 pmol/L
<b>Sensitivity</b>	0.1 pmol/L
<b>Sample Types</b>	Cell culture supernatants#Serum#Plasma#Other biological fluids
<b>Storage</b>	The unopened kit should be stored at 2 - 8°C. After opening, please store refer to protocols.
<b>Hazard Information</b>	The product listed herein is for research use only and is not intended for use in human or clinical diagnosis. Suggested applications of our products are not recommendations to use our products in violation of any patent or as a license. We cannot be responsible for patent infringements or other violations that may occur with the use of this product.
