

Product Datasheet

Human Galectin-4 Protein, His tag (Animal-Free) (orb3148439)

Catalog Number	orb3148439
Category	Proteins
Description	<p>Galectin-4 (Gal-4) is a lectin family member and is one of the tandem repeat-type galectins containing two carbohydrate recognition domains (CRD) connected by a linker region in a single peptide chain. The CRD is responsible for β-galactoside binding, and several binding partners for galectin-4 have been identified, including human blood group antigens, glycoproteins, mucin like membrane MUC1, glycosphingolipids, and sulfated cholesterol. Galectin-4 is constitutively presented in the intestine and stomach, uterine epithelial cells, blood vessel walls, hippocampal and cortical neurons. It serves important functions in numerous biological activities including lipid raft stabilization, protein apical trafficking, cell adhesion, wound healing, intestinal inflammation, and host defense.</p>
Storage	Please store the whole kit at 4°C upon receipt ,and protect from light. The kit is valid for 19 months. Please refer to the table below Materials supplied and Storage conditions to store all the components.
Note	For research use only
Expiration Date	6 months from date of receipt.
