

Product Datasheet

SYP (vPair™) Antibodies (orb66901)

Catalog Number	orb66901
Category	Antibodies
Description	<p>Rabbit polyclonal to SYP. 50 µl SYP (C-term) & 50 µl SYP (Middle). vPair antibodies represent a pair of fully characterized antibodies that recognize two different regions of a target protein. The product is developed by Biorbyt to address whether the signal observed truly represents the protein of interest, an often encountered issue in antibody-based assays. The use of a pair of fully characterized vPair antibodies in the same assay can validate signal specificity since vPair antibodies recognize two independent epitopes of the same protein. Different sets of vPair antibodies are developed at Biorbyt to work with specific applications, including antibody arrays, Western blot, IP-Western, CHIP, IHC, and FACS.</p>
Clonality	Polyclonal
Species/Host	Rabbit
Conjugation	Unconjugated
Reactivity	Human, Mouse
Buffer/Preservatives	0.01% NaN ₃
Purity	Affinity purification
Immunogen	-
UniProt ID	P08247
MW	34
Tested applications	WB

Biorbyt Ltd.

Storage Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Note For research use only

Expiration Date 12 months from date of receipt.

Western blot analysis of total cell extracts from mouse brain using SYP antibody
