

Product Datasheet

Goat anti-Rabbit IgG (H&L), F(ab)'2 fragment, ALP conjugated (orb700364)

Catalog Number	orb700364
Description	Goat polyclonal antibody against Goat anti-Rabbit IgG (H&L) conjugated to AP
Species/Host	Goat
Reactivity	Rabbit
Conjugation	ALP
Tested Applications	ELISA, ICC, IHC, WB
Immunogen	Purified Rabbit IgG
Form/Appearance	Liquid
Storage	Non-diluted antibody is stable for 4 years at 2-8°C. For storage at -20°C dilute antibody solution with an equal volume of glycerol to obtain final glycerol concentration of 50 % to prevent loss of enzymatic activity. Such solution will not freeze in -20°C. If you are using a 1:5000 dilution prior to diluting with glycerol, then you would need to use a 1:2500 dilution after adding glycerol. Prepare working dilution prior to use and then discard, Be sure to mix well but without foaming.
Note	For research use only
Application notes	This antibody reacts with the heavy chains on rabbit IgG and with the light chains on all rabbit immunoglobulins based on immunoelectrophoresis.No reactivity is observed to non-immunoglobulin rabbit serum proteins based on immunoelectrophoresis.
Clonality	Polyclonal
Purity	Immunogen affinity purified goat IgG, F(ab)'2 fragment.
