

Product Datasheet

Human Tumor Necrosis Factor Receptor Superfamily, Member 1A (TNFRSF1A) ELISA Kit (orb775236)

Catalog Number	orb775236
Category	Assays and Kits
Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Tumor Necrosis Factor Receptor Superfamily, Member 1A(TNFRSF1A).
Reactivity	Human
Concentration	1000 pg/mL
UniProt ID	P19438
Tested applications	ELISA
Application notes	standard: 1000 pg/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human TNFRSF1A. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human TNFRSF1A. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human TNFRSF1A, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of Human TNFRSF1A in the samples is then determined by comparing the OD of the samples to the standard curve
Assay Type	Sandwich

Assay Time	3.5h
Range	15.63-1000 pg/mL
Sensitivity	6.3 pg/mL
Sample Types	serum, plasma, urine, cell lysates and other biological fluids
Note	For research use only
