

Product Datasheet

Human A Disintegrin and Metalloprotease 8 (ADAM8) ELISA Kit (orb775559)

Catalog Number	orb775559
Category	Assays and Kits
Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to A Disintegrin And Metalloprotease 8(ADAM8).
Reactivity	Human
Concentration	400 pg/mL
UniProt ID	P78325
Tested applications	ELISA
Application notes	standard: 400 pg/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human ADAM8. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human ADAM8. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human ADAM8, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm \pm 10nm. The concentration of Human ADAM8 in the samples is then determined by comparing the OD of the samples to the standard curve
Assay Type	Sandwich
Assay Time	3.5h

Range	6.25-400 pg/mL
Sensitivity	2.46 pg/mL
Sample Types	Serum, plasma, tissue homogenates, cell lysates and other biological fluids
Note	For research use only
Expiration Date	Please enquire.
