

Product Datasheet

Human Alkaline Phosphatase, Placental (ALPP) ELISA Kit (orb775674)

Catalog Number	orb775674
Category	Assays and Kits
Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Alkaline Phosphatase, Placental(ALPP).
Reactivity	Human
Concentration	8000 pg/mL
UniProt ID	P05187
Tested applications	ELISA
Application notes	standard: 8000 pg/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human ALPP. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human ALPP. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human ALPP, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm \pm 10nm. The concentration of Human ALPP in the samples is then determined by comparing the OD of the samples to the standard curve
Assay Type	Sandwich
Assay Time	3.5h

Range	125-8000 pg/mL
Sensitivity	50 pg/mL
Sample Types	Serum, plasma, tissue homogenates and other biological fluids
Note	For research use only
Expiration Date	Please enquire.
