

Product Datasheet

Human Inducible T-Cell Co Stimulator (ICOS) ELISA Kit (orb776998)

Catalog Number	orb776998
Category	Assays and Kits
Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Inducible T-Cell Co Stimulator(ICOS).
Reactivity	Human
Concentration	1000 pg/mL
UniProt ID	Q9Y6W8
Tested applications	ELISA
Application notes	standard: 1000 pg/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human ICOS. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human ICOS. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human ICOS, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of Human ICOS in the samples is then determined by comparing the OD of the samples to the standard curve
Assay Type	Sandwich
Assay Time	3.5h

Range	15.63-1000 pg/mL
Sensitivity	5.6 pg/mL
Sample Types	serum, plasma, urine, cell lysates and other biological fluids
Note	For research use only
Expiration Date	Please enquire.

Standard curve for orb776998 ELISA kit.
