

Product Datasheet

Human Melanocortin 5 Receptor (MC5R) ELISA Kit (orb777995)

Catalog Number	orb777995
Category	Assays and Kits
Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Melanocortin 5 Receptor(MC5R).
Reactivity	Human
Concentration	50 ng/mL
UniProt ID	P33032
Tested applications	ELISA
Application notes	standard: 50 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human MC5R. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human MC5R. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human MC5R, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm \pm 10nm. The concentration of Human MC5R in the samples is then determined by comparing the OD of the samples to the standard curve
Assay Type	Sandwich
Assay Time	3.5h

Range	0.79-50 ng/mL
Sensitivity	0.25 ng/mL
Sample Types	Tissue homogenates and other biological fluids.
Note	For research use only
Expiration Date	Please enquire.
