

Product Datasheet

Mouse Kallikrein 6 (KLK6) ELISA Kit (orb778553)

Catalog Number	orb778553
Category	Assays and Kits
Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Kallikrein 6(KLK6).
Reactivity	Mouse
Concentration	2000 pg/mL
UniProt ID	Q91Y82
Tested applications	ELISA
Application notes	standard: 2000 pg/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse KLK6. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse KLK6. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse KLK6, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of Mouse KLK6 in the samples is then determined by comparing the OD of the samples to the standard curve
Assay Type	Sandwich
Assay Time	3.5h
Range	31.25-2000 pg/mL

Sensitivity	13.5 pg/mL
Sample Types	serum, plasma, cerebrospinal fluid, breast milk and other biological fluids
Note	For research use only
Expiration Date	Please enquire.

Standard curve for orb778553 ELISA kit.
