

Product Datasheet

Human Thymopoietin (TMPO) ELISA Kit (orb778784)

Catalog Number	orb778784
Category	Assays and Kits
Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Thymopoietin(TMPO).
Reactivity	Human
Concentration	500 pg/mL
UniProt ID	P42166
Tested applications	ELISA
Application notes	standard: 500 pg/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human TMPO. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human TMPO. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human TMPO, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm \pm 10nm. The concentration of Human TMPO in the samples is then determined by comparing the OD of the samples to the standard curve
Assay Type	Sandwich
Assay Time	3.5h

Range	7.82-500 pg/mL
Sensitivity	4.1 pg/mL
Sample Types	Serum, plasma, tissue homogenates and other biological fluids
Note	For research use only
Expiration Date	Please enquire.
