

Product Datasheet

Mouse Surfactant Associated Protein B (SPB) ELISA Kit (orb779170)

Catalog Number	orb779170
Category	Assays and Kits
Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Surfactant Associated Protein B (SPB).
Reactivity	Mouse
Concentration	50 ng/mL
UniProt ID	P50405
Tested applications	ELISA
Application notes	standard: 50 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse SPB. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse SPB. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse SPB, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of Mouse SPB in the samples is then determined by comparing the OD of the samples to the standard curve
Assay Type	Sandwich
Assay Time	3.5h

Range	0.79-50 ng/mL
Sensitivity	0.33 ng/mL
Sample Types	Tissue homogenates, cell lysates, cell culture supernates and other biological fluids.
Note	For research use only
Expiration Date	Please enquire.

Standard curve for orb779170 ELISA kit.
