

Product Datasheet

Dog Thyroid Stimulating Hormone (TSH) ELISA Kit (orb779846)

Catalog Number	orb779846
Category	Assays and Kits
Description	This assay employs the sandwich enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Thyroid Stimulating Hormone (TSH) protein. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Thyroid Stimulating Hormone(TSH).
Reactivity	Canine
Concentration	10 ng/mL
Tested applications	ELISA
Application notes	standard: 10 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Dog TSH. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Dog TSH. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Dog TSH, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm \pm 10nm. The concentration of Dog TSH in the samples is then determined by comparing the OD of the samples to the standard curve
Assay Type	Sandwich
Assay Time	3.5h

Biorbyt Ltd.

Range	0.16-10 ng/mL
Sensitivity	0.063 ng/mL
Sample Types	serum, plasma and other biological fluids
Note	For research use only
Expiration Date	Please enquire.
