

Product Datasheet

Rat Surfactant Associated Protein B (SPB) ELISA Kit (orb779851)

Catalog Number	orb779851
Category	Assays and Kits
Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Surfactant Associated Protein B (SPB).
Reactivity	Rat
Concentration	10 ng/mL
UniProt ID	P22355
Tested applications	ELISA
Application notes	standard: 10 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rat SPB. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat SPB. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rat SPB, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of Rat SPB in the samples is then determined by comparing the OD of the samples to the standard curve
Assay Type	Sandwich
Assay Time	3.5h

Range	0.16-10 ng/mL
Sensitivity	0.054 ng/mL
Sample Types	tissue homogenates, cell lysates, lung lavage fluid and other biological fluids
Note	For research use only
Expiration Date	Please enquire.

Standard curve for orb779851 ELISA kit.
