

Product Datasheet

Rat Cytochrome C Oxidase Subunit II (COX2) ELISA Kit (orb781555)

Catalog Number	orb781555
Category	Assays and Kits
Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Cytochrome C Oxidase Subunit II(COX2).
Reactivity	Rat
Concentration	20 ng/mL
UniProt ID	P00406
Tested applications	ELISA
Application notes	standard: 20 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rat COX2. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat COX2. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rat COX2, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm ± 10nm. The concentration of Rat COX2 in the samples is then determined by comparing the OD of the samples to the standard curve
Assay Type	Sandwich
Assay Time	3.5h

Range	0.32-20 ng/mL
Sensitivity	0.111 ng/mL
Sample Types	tissue homogenates, cell lysates and other biological fluids
Note	For research use only
Expiration Date	Please enquire.

Standard curve for orb781555 ELISA kit.
