| <b>Catalog Number</b>       | orb902282                                                                                                                                                                                                |
| <b>Category</b>             | Antibodies                                                                                                                                                                                               |
| <b>Description</b>          | Phospho-NFkB p65 (Ser276) Rabbit Polyclonal Antibody (PE-Cy7) is a PE/Cy7 conjugated antibody targeting RELA. This antibody is suitable for FC, ICC, IF. It exhibits reactivity with Human, Rat samples. |
| <b>Target</b>               | RELA                                                                                                                                                                                                     |
| <b>Clonality</b>            | Polyclonal                                                                                                                                                                                               |
| <b>Species/Host</b>         | Rabbit                                                                                                                                                                                                   |
| <b>Isotype</b>              | IgG                                                                                                                                                                                                      |
| <b>Conjugation</b>          | PE/Cy7                                                                                                                                                                                                   |
| <b>Reactivity</b>           | Human, Rat                                                                                                                                                                                               |
| <b>Predicted Reactivity</b> | Bovine, Canine, Equine, Mouse, Porcine                                                                                                                                                                   |
| <b>Concentration</b>        | 1mg/ml                                                                                                                                                                                                   |
| <b>Buffer/Preservatives</b> | 0.01M TBS (pH7.4) with 1% rAlbumin, 0.02% Proclin300 and 50% Glycerol.                                                                                                                                   |
| <b>Purification</b>         | Affinity purified by Protein A                                                                                                                                                                           |
| <b>Immunogen</b>            | KLH conjugated Synthesised phosphopeptide derived from human NFkBp65 around the phosphorylation site of Ser276 RP(p-S)DR                                                                                 |
| <b>Tested applications</b>  | FC, ICC, IF                                                                                                                                                                                              |
